WORK EXPERIENCE

- Ascentrik Research Pvt. Ltd. - Wakad, Pune**
Research Analyst | Dec 2019 - Jan 2022
 - Conducted in-depth market research and analysis to identify emerging trends, customer preferences, and competitive dynamics.
 - Gathered data through primary and secondary research methods, including surveys, interviews, and online resources.
 - Utilized analytical tools and databases (e.g., Excel, hansonwade, ZoomInfo, Hoovers) to extract and interpret data for actionable insights.
 - Created detailed reports and presentations for senior management, highlighting key findings and recommendations.
 - Analyzed industry-specific data to assess market conditions, growth opportunities, and potential risks.
 - Collaborated with cross-functional teams to provide data-driven insights for strategic decision-making and marketing campaigns.
 - Tracked key performance indicators to evaluate market trends and measure the success of marketing efforts.
- Kinetic Taigene Electrical Pvt. Ltd. - Takve MIDC, Pune**
Quality Engineer Trainee | June 2018 - Jan 2019
 - Performed quality checks on motor assembly and conducted tests (magnetization, noise, RPM, torque).
 - Prepared rejection reports for faulty motors.
- Teleperformance Global Services Pvt. Ltd. - Vadodara, Gujarat**
L1 Customer Service Agent (SBI Process) | June 2017 - March 2018
 - Provided customer support for SBI online banking services and financial transactions.
 - Assisted with home loan procedures

PROJECT

Startup Sprint - Loan Application for Startups

- Led the development of the frontend for a loan application platform aimed at startup businesses.
- Implemented dynamic data fetching to retrieve user personal and bank details using unique ID and application ID, ensuring accurate and secure information handling.
- Collaborated closely with backend developers to integrate APIs and ensure seamless data flow between frontend and backend systems.
- Conducted thorough testing to ensure cross-browser compatibility and resolved bugs, improving overall performance and usability.
- Utilized technologies like React, HTML, CSS, and JavaScript to build a scalable and maintainable frontend architecture.
